IEI Quick Mounting Technology

Flexible mounting options are ensured by the implementation of the IEI IQ mount design on the AFOLUX series. The different mounting options include ARM mounting (industrial controls), panel mounting (kiosk applications), wall mounting (e-home terminals), stand mounting (thin client applications) and shop flow mounting (manufacturing management).

The IEI quick wall mount kit enables quick and easy installation and maintenance of the AFOLUX.

IEI ARM mounting saves space in the working area.

Conventional stand mounting enable easy integration of the AFOLUX into any environment.
